

Welding Enclosed Weld Head - HX 22P

The HX 22P ideal for welding stainless-steel pipes economically and with high quality using the TIG welding procedure: Unique in the entire world, HX orbital weld heads are the best solution for efficient, high-quality production thanks to their automated welding technology. Pre-mounted pipe elbows (for example in heat exchanger construction), even those in tight pipe bundles, can be joined to small stain- less-steel pipes reliably, quickly and safely.
