

Welding Switching Device Power Supply - Orbitwin SW Switching Device

An accessory for the Orbitalum OM180 SmartWelder orbital welding power supply, the Orbitwin SW alternatively controls two orbital welding heads at the same time, increasing productivity. The previously assigned program is recalled automatically when the start key of the welding head is pressed. The welding head in the pair not being used is locked and can be prepared for the next welding operation

Operating Weight: 19.4lb (8.8 kg)

Warranty: 12 months

ORBITWIN SW switching device

180 SW, 165 CA*, 300 CA*, 300 CA AC/DC*

Connector set ORBITWIN SW to ORBIMAT CA

165 CA, 300 CA, 300 CA AC/DC

Connection extension set 1.1 m (3.6 ft)

180 SW
